

PERFECT BINDERS' WORKFLOW

C.P. Bourg BB3002 Perfect Binder presents an efficient, economical and environmentally sound means of producing bound books in a wide range of sizes on-demand, with up to 13 positive or negative knife creases. The BB3002 is available in EVA/hot melt and PUR-C.

To maximise your productivity, the BB3002 can be upgraded with a Bourg Book Loader (BBL) to create the BB3102; or a Bourg Book Compiler (BBC) to create the BB3202. The BB3002 is also compatible with various presses/printers in In-Line and Off-Line/Near-Line modes as well as other finishing equipment.
